FAYAT GROUP

# EASYPATCHER

SPRAYED ASPHALT

POTHOLE TREATMENT

AUTONOME

## ERGONOMICS

- Control panel located on the applicator arm, easy to adjust
- 4 m hose, articulated arm enabling the operator to cover a wide working area with minimum effort
- Mixing head to ensure the right mix of components and durability

## SIMPLICITY

- Easy to fit on a two-axle truck
- Quickly removable to make the truck available for other applications
- Operates independently of the truck with its auxiliary engine

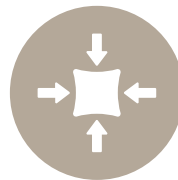

## ECONOMY

- Easy heating and temperature maintenance thanks to tank insulation
- Can load up to 1,000L of emulsion and 6m<sup>3</sup> of chips to reduce the number and time of refill operations
- Apply just the right quantity with the mixing head, no premix, no wasted materials

## RELIABILITY

- Your EASYPATCHER project is developed, designed and produced in our factory in Cossé le Vivien 53 France
- Hotline, in stock spare parts, we remain at your service to ensure the smooth running of your jobsites

## COMPACTNESS

- Can be shipped in a container
- One machine for 4 operations
- Application lance can be fully folded into the truck's dimensions
- Mounted on a truck 2 axles or a trailer

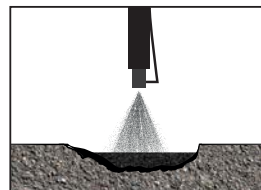

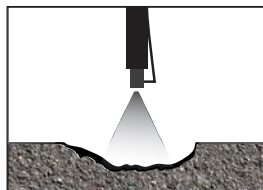

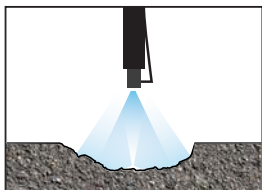

## EFFICIENCY

- Less than 2 minutes to treat a pothole
- 4 steps for a lasting repair
- Reduced treatment time = more potholes treated per day

## POTHOLE TREATMENT

- 1) Cleaning the defect by blowing air,
- 2) tack coating the defect « spraying » bitumen emulsion,
- 3) filling the defect with chips having been coated with emulsion,
- 4) finishing the repair with dry chips.
